

SKUINSKLOOF PRIMARY SCHOOL, SOUTH AFRICA

This school educates 105 plus children ages 5-13 years. They learn with few school supplies. Teachers have almost no teaching tools. FUMCR has been involved with the school for 6 years and a team from FUMCR will go South Africa in June 2016 to build a dining hall for the school. The support of FUMCR continues as we become more involved in the future of this tiny school, it's students, and teachers. Your share will help in vital ways to continue making education possible for these children.

CLEAN WATER / WATER WELLS

Water. It's something many of us take for granted. Close to half of all people in developing countries suffer at any given time from health problems caused by lack of clean water and sanitation. Some 1.8 million children die each year as a result of diarrhea. Millions of women in communities throughout the developing world spend several hours every day just collecting water that they will need for the day. This share will support projects that provide access to clean water.

One share \$15

HABITAT FOR HUMANITY

Provides quality housing for stable, low income families in the Dallas area. The houses are built by the Richardson Area Interfaith Habitat for Humanity Chapter. One or two houses are built each year by this group of volunteers.
