

May 1, 2026

We're excited to share a meaningful update on the DREAM Capital Campaign and the incredible progress made possible by your faithfulness and generosity. Because of you, this has become the largest capital campaign in our church's history, with \$15,091,600 given or pledged by 719 households toward our shared vision for the future.

Already, \$7.7 million has been received, representing more than 50% of the commitments made, an extraordinary milestone just seven months into a three-year campaign. We are deeply grateful for the ways you have already participated. If you feel led to build on your original commitment, we would welcome that conversation at any time. Our Business Office would be glad to hear from you.

From the beginning, a key priority of this campaign has been debt reduction. Thanks to your support, \$5.5 million has already been applied toward that goal, moving us significantly closer to becoming debt-free by 2028. Important progress is also happening behind the scenes. Our Building Committee has selected Tally-Riggins as our general contractor and is currently in the value engineering phase with the architects at Good, Fulton & Farrell. This work is helping ensure we are stewarding resources wisely as plans are refined and aligned with our vision. The committee anticipates bringing a recommendation to the congregation at an all-church meeting later this summer, where we will have the opportunity to hear more details and affirm the proposed direction together.

In the coming months, you may begin to see early signs of progress around campus. Initial improvements, such as upgraded parking lot lighting and enhancements to the Sanctuary sound system, are just the beginning, with more to come.

It has been a true joy to serve as co-chairs during such a meaningful season in the life of our church. We are honored to see our shared commitment to future generations already taking shape. What once felt like a dream is becoming reality, and we are deeply grateful to be on this journey together.

With gratitude,
Kim and Bob Caston
Barbie and Gary Coleman
